"A Public Benefactor." Office of Nichols & Sieiner, 48 Pine St.
Naw York Civy, Nov. 13, 1878.

Dr. M. M. Franker, Fredoris, N. Y.,
Dear Sir:—I have been a great sufferer from Biliousness and Dyspepsis for years.
My friend, Hoe. R. C. Lake, of the New Custom House, induced me to try your Blood and Liver Remedy and Nerve Topic.
By the use o two bottles I have sustained the most refreshing relief. I look upon it as one of the greatest remedies of the day, and you as the compounder of the same, as a public benefactor.

Yours truly,

WM. STEINER,

Ex-Commissioner Exercises New York City.

BROOKLIN, April 16th, 1879. Messrs. Glles & Co .- Gentlemen :-My wife and myself have been using your lodide Ammonia Liniment for some time, and find it the best article of the kind we have ever tried. As you do not advertise it as efficacious for burns, I thought I would advise you of A telephone conducted lightning into its great value in that direction. A servant in our house burnt the back of her hand severely one morning recently and came to my wife saying she could not finish her work she was in such pain. My wife tied a bandage wet with your Liniment about the injured hand, which on the first application started the tears to her eyes. She went about her work. An hour or so later she came to our room, minus the bandage, and my wife asked how her hand was-She had forgot that it was burned. My wife has burned her fingers several times, always applying your Liniment, and never feeling pain or inconvenience from the burn after. In strapping my razor a few mornings since, it slipped and made a deep cut in my left thumb. I immediately applied the Liniment, it, the cut, quickly healed without a particle of soreness. I give you this relation of our experience for the benefit of the public. We shall never be without the lodide Ammonia Liniment so long as it can be purchased. Very truly yours,

Eight good reasons why every Far-mer should use the Homestead brand of Super-Phosphate: Because it gives the crop a quick and vigorous start. It matures the crop from 10 to 15 days earlier than any other manure, thereby, in many cases sav-ing the entire crop from early frost. It will increase your erep from 50 to 100 per cent. It adds a permanent value to your soil. You cannot keep up the fertility of your soil unless you re-store to it what you take away by con-Bone Phosphate. None sent to mar-

to a fine, dry powder, which can be sown with a drill, thereby insuring a great economy in its use on grain
